# DOOR CANOPIES

SOLAR SOLUTIONS FOR WINDOWS

**SNOW:** Door canopies help protect your entryway on harsh winter days helping to reduce ice and snow from steps and landings.

**SUN:** Door canopies provide shade to help lower cooling costs and reduce indoor fading of furniture and floors.

**RAIN:** Door canopies feature a built-in front gutter to help channel rain water away from your home's entryway.

SummerSpace® Aluminum Door Canopies are the perfect choice when you want to protect your entryways from the elements. They feature a heavy-duty mill finish aluminum framework making them durable enough to protect against driving rain and heavy snow loads.

- **Built-in front rain gutter**
- **Heavy extruded mill finish framework, with reinforced center mullion(s) on all sizes**
- **Available in custom sizes and widths**
- **Available with white support arms with adjustable mounting brackets or sidewings**
- **Hardware included for quick and easy installation**

## 13 ALUMINUM COLOR CHOICES

Choose a solid or striped pattern in today's most popular colors. Underside of awnings are always white for light reflection.

## MADE TO ENDURE SummerSpace® Aluminum
